THIRD YEAR—NO 889

BENTON HARBOR, MICH., WEDNESDAY, AUGUST 17, 1898.

TWO CENTS

DEWEY TELLS

How the City of Manila Fell.

The Honor Belongs to the Navy.

Five Americans Killed and 45 Wounded.

Dewey's Fleet and Men Untouched.

Washington, Aug. 17.—The following cable was made public this morning:

Manila, Aug. 13.—Manila surrendered today to our land and naval forces under combined attack. A division of the squadron shelled the forts and intrenchments at Malate south of the city driving the enemy back, our army advancing on that city at the same time. City surrendered at 5 o'clock this evening. Flags were hoisted by Lieut. Brumby. About seven thousand prisoners were taken. The squadron has no casualties. No vessels injured. On August 7 Gen. Merritt and I formally demanded the surrender of the city which the Spanish general refused.

DEWEY.

Lieut. Brumby is Admiral Dewey's flag lieutenant and the navy is therefore credited with taking possession of the city.

Hong Kong, Aug. 17.—The steamer Zafire has arrived here with later details of the surrender of Manila. Four ships of Dewey's squadron bombarded Malate for an hour, firing a hundred shells, when the Spaniards ran up a white flag. Later the American flag was raised and the formal surrender of the Spaniards completed. The surrender includes sixty-five hundred men, twelve thousand stands of arms and an immense amount of ammunition. Five Americans were killed and forty-five wounded. When the American flag was raised over the city, Dewey's squadron fired the national salute. The inhabitants of the Philippines are glad the struggle is over. The shops are again open and the blockade has been raised and things will soon resume their normal state.

GO BEGGING.

Statesmen Shy of Being on Peace Commission.

Washington, Aug. 17.—The refusal of Senator Allison to take a place on the peace commission leaves Judge Day the only one whose membership is absolutely assured. Senator Davis' friends do not believe that able Minnesota will accept a place.

Washington, Aug. 17.—It is stated this afternoon that Senator Davis has about decided to accept a place on commission.

REWARD OFFERED

Tramp Drum Major is Wanted by the Sheriff.

Last Monday Frank Johnson, a young man who has been staying in the twin cities since July 4 stole two grips at the M. B. H. & C. depot and departed for parts unknown.

The grips taken were the property of H. J. Hensel, a Chicago traveling man. One of them contained clothing and the other was filled with goods which Mr. Hensel sold on the road.

Jackson is a tramp drum major, aged about 22 years, height about 5 feet 7 inches, weight 140 pounds. At the time of the theft he wore light colored bicycle cap, blue uniform coat trimmed with braid, light colored canvas shoes. He carries a stick about 3 feet long with small croquet ball on the end and performs with this stick wherever he can find a crowd of people and then takes up a collection.

Sheriff Ferguson offers a liberal reward for his capture.

Russian Prisoners Perish in Fire.

St. Petersburg, Aug. 17.—Another great fire has occurred at Nijni Nov Gorod, the workhouse being destroyed resulting in the death of many prisoners. Thirteen bodies have already been recovered.

Opposing Soldiers Make Up.

Ponce, Aug. 17.—Quiet prevail all along the American front and white flags are flying on all lines. The Americans and Spaniards are very friendly when they meet.

More Spanish Nonsense.

Madrid, Aug. 17.—Gen. Jaquednes will be tried by court martial for not making greater resistance at Manila.

What is sinner for a wedding or birthday present than an artistic picture, especially when it is a picture of a man in uniform.

DEWEY

For President

Tammany Is Booming Manila Hero.

Crocker Hopes to Defeat Bryan.

And Dwarf the Silver Issue.

Boom Was Started Today.

"Boss" Crocker's Fine Game.

New York, Aug. 17.—Tammany hall democrats have decided to make Admiral Dewey their candidate for president in 1900. In Boss Crocker's personal organ the boom was started this morning.

In 1896 Tammany supported Bryan and the silver cause in a dispirited fashion and ever since Crocker has been looking for a man to supercede the Nebraska orator in the hearts of the democrats. In Admiral Dewey Richard Crocker believes he has found the man who can wrest the democratic nomination from Bryan.

CORBETT-M'COY

Fight May Be Postponed on Account of the Tragedy.

New York, Aug. 17.—James J. Corbett left for San Francisco this morning. The bodies of his parents will be left in a vault until his arrival.

Corbett denied the statement that his father was financially embarrassed. The ex-champion said that if McCoy would postpone the fight to any day after September 15 he would fight him.

IN HIGH LIFE

Two Dowagiac Society People are Causing Much Talk.

Dowagiac, Aug. 17.—Much excitement has been occasioned here by the reported marriage of Don Gregory and Miss Verna Henwood, which, according to Miss Henwood, occurred a week ago last Sunday while the young people were spending the day in St. Joseph.

Both of the young people have wealthy parents and the family of the young man say that the report of his marriage is untrue.

Immediately after Miss Henwood gave out the information that she was Miss Gregory, her alleged husband left town and this was the cause of the young lady's illness which Mother Gossip says was an attempt to take her own life. At the present time however she is on the road to recovery.

A careful search of the marriage licenses issued in Cass county show that no marriage license was issued to Mr. Gregory and Miss Henwood and in Berrien county the records was searched with the same result.

It is hinted that Gregory is now clerking in a store at Three Oaks.

Spain in Fear of Carlists.

Madrid, Aug. 17.—Carlism clubs in the province of Aragon have been closed by order of the government.

Mineral Wealth of Wales.

Wales is the richest part of Great Britain in mineral wealth. England produces annually about £2 to each acre, Scotland a little less than £2, but the product of Wales amounts to over £4 per acre.

MUST KEEP OUT

Armed Cubans Cannot Enter Santiago.

They Are Glad Shafter Is to Leave.

Santiago, Aug. 17.—The Cubans have been informed by the American commanders that any attempt on their part to enter the city with arms will be prevented by the Americans. The Cubans are deeply aggravated and are glad that Gen. Shafter, who they look upon as their worst enemy, will leave the island this week.

Gen. Toral, the Spaniard who surrendered the city, will leave for Spain today. Gen. Linares will soon follow. The death rate among the Spaniards is alarming.

The Evening News,

MANILA HAS FALLEN.

Of That the National Officials at
Washington City Have
Not a Doubt.

THEY LISTEN FOR NEWS, HOWEVER,

London Paper Has an Account of the
Fall of the City.

Diplomatic Movement Started to Get the
Cable Communication with the Philip-
pines Restored—Dewey Has the Ends of
the Cable Buoyed—German Commu-
nism's Act in Carrying Off August! Not
Important—Porto Rican Spaniards
Charged with a Butchery.

Washington, Aug. 17.—The state de-
partment received notice late last night
of the arrival at Hong Kong of the dis-
patch boat Zafiro with advices from Ad-
miral Dewey and General Merritt. At
this writing no message from them had
reached the administration.

London, Aug. 17.—A special dispatch
from Madrid says: "The surrender of
Manila Saturday by General Jaudemes
is officially announced. The United
States troops immediately occupied the
city."

London, Aug. 17.—The Manila corre-
spondent of The Daily Telegraph, tele-
graphing Saturday, says: "Nothing
could be more humane than the Ameri-
can capture of the town. General Mer-
ritt's and Admiral Dewey's plan was to
spare every object but the armed de-
fenses and the trenches. Apparently
the American losses were extremely
small. The Spanish entrenchments var-
ied in point of distance from two to
four miles from the center of Old Ma-
nila. Defending this long line of at
least ten miles were not over—and prob-
ably under—5,000 Spanish regular
troops, volunteers and natives. About
half that number were in the hospital.
The attacking force numbered from
10,000 to 20,000 natives and 10,000 Ameri-
cans, on shore and aboard the fleet.

Hopeless Case for the Dons.

"In every respect the advantage was
on the side of the attack. The Ameri-
can field guns threw heavier metal and
had longer range than the Spanish, the
marksmanship of the United States
gunners was much superior to that of
the Spaniards, and the men were
stronger and in better condition. The
Spaniards are a small race compared
with their stalwart opponents, and
worn out by 100 days' siege and disap-
pointed by the failure to arrive of the
promised Spanish relief squadron, they
had lost heart. It was a hopeless strug-
gle.

Olympia Fired the First Shot.

"The attacking squadron formed in
line between Malate and Old Manila
with the Concord watching the fort at
the mouth of the Pasig. The American
fleet lay outside the breakwater. The
Olympia fired the first shot at 9:40,
and a fairly continuous but by no means
furious cannonade was kept up until
11:20. By that time the Malate fort
was silenced and the American troops
then stormed the intrenchments. The
Spaniards who were in the earthworks
told me that the quick-firing guns of
the little gunboat Rapido, which lay close
to the shore, were far more terrible in
their effects than was the raking fire of
the ships.

American Attack Was Resistless.

"Resistance to the American attack
was impossible. The First Colorado
regiment was the earliest to charge the
Spaniards, who retired to the second
line, but soon outnumbered they were
forced into the old city. A part of
Malate suffered severely from the bom-
bardment. The vaunted intramuros de-
fenses were not tried. The Spanish com-
mander, convinced that further resist-
ance was hopeless, hoisted a white flag
at 11:30, and the order to cease firing
was immediately issued in the center
of the town, but in the outskirts street
fighting continued for some time after-
wards between the rebels and Spaniards."

WAR DEPARTMENT IS ANXIOUS.

Trying Hard to Get Into Communication
with Dewey and Merritt.

Washington, Aug. 17.—The war de-
partment was anxiously awaiting news
from Manila all yesterday. Secretary
Alger said last night that General Mer-
ritt and Admiral Dewey had full in-
structions and full power to act, and
there was not the least doubt that
whatever was done would be most sat-
isfactory. It might be said that in the
changed condition of affairs since the
protocol was signed General Mer-
ritt might ask for further instructions,
but he had not done so. The war de-
partment will welcome the restoration
of cable communication to Manila so
that it may be advised at all times as
to the progress of events.

During the day the government be-
gan an effort, through diplomatic chan-
nels, to re-establish cable communica-
tion with Manila. It was believed by
officials last night that the efforts would
prove successful, although some days
may elapse before the diplomatic rep-
resentations have borne fruit. The gar-
ble out of Manila is under the control of
a British company. The line is under-
stood to be cut near Manila, but Ad-
miral Dewey has buoyed the severed
ends, so that a connection can be re-
stored if the company will permit the
line to be operated. Pending the renew-
al of this cable route the authorities
here remain without direct advices from
the reported bombardment and surren-
der of Manila last Saturday.

The fact that the city has passed into
American hands is accepted as practi-
cally certain by the authorities here, al-
though there is nothing yet from Ad-
miral Dewey or General Merritt. It is
expected that a dispatch boat may
bring advices to Hong Kong at any
time, as a move of this important char-
acter would not be allowed to pass
without getting speedy communication
with Washington. As a German cru-

...and be-
...captain gen-
eral of a German warship
will not be a startling incident as be-
tween the United States and Germany.
The matter was brought up at the cabi-
net meeting yesterday, and it was
there revealed that the Spanish gov-
ernment had dismissed Augusti and
turned his office over to another before
he abandoned the Philippine capital.
When he boarded the German vessel
with his family he was merely a private
individual and not of sufficient im-
portance to make a fuss about. If he had
been in command of Manila when he
made his escape this government could
demand him of the German government
as a prisoner of war.

REIGN OF TERROR REPORTED.

Spaniards Charged with the Butchery of
Ninety Persons.

Ponce, Porto Rico, Aug. 17.—[Copy-
right, 1898, by the Associated Press.]—
White flags flutter at the Spanish and
American outposts and all is quiet.
The first report of outrages by the
Spaniards within their lines was brought
to the headquarters of General Wilson
Monday by a priest who headed a deputation
from Ciales, twenty miles north-
east of Utuado. The inhabitants of the
place raised an American flag after the
Spanish troops had left. The troops
returned, tore down the flag, and
marched ninety of the inhabitants. This
occurred Saturday. The priest appealed
to the Americans for protection, but the
latter were powerless to interfere in the
present circumstances, even though a
reign of terror be inaugurated.

The Chester with the First engineers,
Colonel Griffin, arrived. Batteries A
and C of the Pennsylvania Light artill-
ery, the Governor's troop and Sheridan
troop disembarked from the Manitoa
and are camped on the outskirts of the
town. No disposition of these troops
has yet been decided upon. The Col-
umbia sailed last night for New York,
via St. Thomas and Key West.

Washington, Aug. 17.—Late last night
Adjutant General Corbin received a
cablegram announcing the arrival last
evening at Ponce, Porto Rico, of the
transport Alamo, having on board Gen.
Fred D. Grant and staff and a part of
the First Kentucky. All told the Alamo
had on board about 650 men. General
Corbin was also advised last evening of
the arrival at Ponce of the transport
Chester with the First volunteer en-
gineers.

Peace Rules at San Juan.

Ponce, Porto Rico, Aug. 17.—The
American cruiser New Orleans at-
tempted to enter the harbor at San
Juan de Porto Rico Monday under a
flag of truce, with a notification of the
signing of the protocol, but was unable
to do so on account of the sunken wreck
at the entrance. Her captain went
ashore in a small boat and was gra-
tiously received by Captain General
Macias, who accepted an invitation to
dine on board the cruiser.

Wisconsin Soldier Not Shot.

Washington, Aug. 17.—It was stated
a few days ago that Private La Duke,
company I, Second Wisconsin, had been
shot after court martial in Porto Rico
for killing Thomas Stafford, of the
Thirteenth regulars, during a personal
fight. A dispatch from Ponce says that
La Duke was not shot, but sent to
penitentiary for life at Fort Leaven-
worth.

Conference at Springfield Makes Little
Progress in Settling the Same.

Springfield, Aug. 17.—At yesterday
afternoon's session of the conference
of the coal operators with the national
executive committee of the United Mine
Workers of America regarding the re-
duction of the price of mining in the
Chicago and Alton district Chairman
Mitchell, vice president of the United
Mine Workers' union, ruled that the
matter was one in which the national
executive board had jurisdiction.

Judge Newsame, of Peoria, said
should the board grant the operators of
the Chicago and Alton sub-district a
reduction in their scale he would re-
duce his scale. J. D. Scrabble, of St.
Louis; James Taylor, of Peoria, and
J. C. Simpson, general manager of the
Consolidated Coal company of St. Louis,
made similar threats. An adjournment
was finally taken until this morning to
allow the Indiana operators to send a
representative here and be heard.

SHERIFF IS CLEVER

How He Got a Crazy Man to Dress...

Sheldon Brown Anderson, the crazy man who created such a disturbance at the Fonger house a week ago and a little later made music on the street, was taken to the Kalamazoo asylum last evening in charge of Sheriff Ferguson and C. M. Van Kiper. They left over the M. B. H. & C. road.

Anderson has been confined in the county jail for several days and he has persistently refused to dress himself, going about with the scanty attire of a savage. The sheriff was much perplexed to know how he would be able to get the man dressed in a presentable shape. He remembered how Anderson thought that he was a special agent of the Almighty and that President Mc-

Kinley was serving in his present position simply because he (Anderson) permitted him. The insane man has been daily announcing that in a few days God would send him to Washington to depose McKinley from office and put in his place William Jennings Bryan.

Sheriff Ferguson cleverly played his cards. Yesterday he hurried into the jail and panting for breath he told Anderson that he had just received a message from God to take him to Washington to meet Bryan, where the two were to decide great matters pertaining to the American people.

The crazy man received the word with great delight and excitedly replied: "I knew that message would come today." He hurriedly put on his clothes and soon was ready to accompany Mr. Ferguson to the train.

The franchise is for 30 years and the commissioners retain the right to re-construct the instrument at the end of that term if they see fit. The franchise requires that the tracks shall be four feet, eight and one-half inches in gauge and that the fare shall not be less than five cents for four miles or under nor more than one and one-half cents per mile.

RIDE ON THE ST. JOE.

Indiana Visitor Describes It In Verse.

Mrs. Abbie Wright of Bremen, Ind., was here a few days ago the guest of Dr. N. A. Herring and wife. While riding on the steamer Tourist to Somerleyton she wrote these descriptive verses:

"St. Joe" river, low its edge
Graced with willows, waving sedge
Spikes and steel, low mark of the town.
Island small in bed set down.
Seen from steamer's crowded deck,
Ah! awhile, 'tis mere a speck.
Banks with clinging verdure teem
Bending branches kiss the stream:
Elder bloom, half open, white.
Asters purple, daisies bright.
Yellow, nod while cattle graze.
Camp tents and e. strong men raise.
Fields of corn and pasturage,
Shadows born of foliage.
O! An island, one may rove
Thro' green aisles of verdant grove.
Seek a glen, a hidden nook.
There to nap or read a book.
Hot runs close to oaken pier.
Takes aboard our kindly dear.
Launch a-ho! and off they dip.
"The Rambler" often takes long trips.
Groups of bathers having fun
Floating, swimming every one.
From trim tents our flag flies free.
Rowboat passes, comrades true.
Gardens wide, laid out with care.
Clouded sun, delicious air.
Steamers ahead the boat, on bar
Grounded, engines active, far
Broad sweeps makes, "we're round the bend"
Trees like vases, shore defend.
Boat sheds speed them off again
Turns once more, ah! rowboat drawn
Close is lily pond: "The Fawn."
Turtles out to greet the sun.
Counted ev'ry single one.
Sail-boats anchored, schooner rigged.
Ay! with pennons, dancing, tripped.
Little girls in muslin dressed
Esther, Edith speak with guest
Elm trees lean over river's breast.
Shadow casts on water's crest.
Railroad trestle spans the wave.
Under there the willows live
Side of sturdy craft, then blows
Whistle hoarse, the engine's throes
Warning gives the trip is o'er.
Party views the haunted shore.
Ay! the scene most picturesque.

DISMAL PICTURE

Bay City Men Curse the Klondike and Tell of Misery...

Bay City, Aug. 17.—A letter has been received from the Moore brothers, who left last fall for the Klondike and arrived in Dawson July 12. They write that "the country has been lied about by Ogilvie and every Canadian official interested. A more disappointed and despondent lot of men never were seen. It is simply fearful. Thousands are stranded here without money, with very little provisions and no work."

"Out of the thousands of claims recorded in the vicinity, only about eighty are paying. There has been about \$4,000,000 taken out where \$30,000,000 was expected. Rings exist

among the Canadian officers and fraud and dishonesty are practiced in recording claims, many being cheated out of a chance. There is nothing in view to keep the thousands here. The best mines will not be worked next winter unless the ten per cent royalty is taken off."

"There will be a great deal of suffering, as hundreds who lost their outfits and did not bring a pound of provisions are now in want and begging for food. Only one boat has arrived from St. Michael this season. She brought only a small quantity of provisions."

The brothers expect to return home as there is nothing in sight for them.

GRAVEL STREETS.

Pipestone and Territorial to Receive Attention.

The 100 loads of gravel which the M., B. H. & C. road has kindly offered to haul here from Buchanan free of charge will be used in making Pipestone street and Territorial passable thoroughfares. A little strip of Elm street from Pipestone to Bluff will also be graveled.

Street Commissioner Shankland estimates the cost of putting the gravel on the streets at 20 cents per yard. The cost of loading is 12½ cents per yard, making the total cost put on the streets of 32½ cents. The gravel will be spread to a thickness of six inches, and this will allow a cubic foot of it to cover six yards of street surface. In other words, six yards of street can be built for 32½ cents.

It is proposed to also gravel Pipestone street from Britain to Empire and making this street a boulevard. The cost would be small and the property owners along the street would be glad to stand a special assessment for such an improvement.

General Greely's 278 Days of Death.

The true story of those 278 days of suffering by Greely's heroic little band of explorers in the Arctic region has been told by General Greely himself, for the first time, for the October Ladies' Home Journal. For years General Greely has kept an unbroken silence about his fearful experience and that of his companions as they dropped dead one by one at his side, and it was only after the greatest persuasion that the famous explorer was induced to write the story.

WEDNESDAY, AUGUST 17, 1898.

SEND THE 33D HOME.

The war department has prepared a list of 50,000 soldiers to be mustered out and sent home within the next two weeks. In this list is the 35th Michigan.

The 35th Michigan is an excellent regiment and is fully equipped for good service. This regiment has been in camp at Island Lake for many weeks and it would be a shame to disband this regiment and keep the sick soldiers of the 33d—boys who have suffered as no soldiers outside of Cuba ever suffered—longer in the service.

Let the 35th do garrison duty but let the 33d come home and rest. Any other plan will be injustice to both regiments.

YEARS ago Senator Burrows thought the republicans of the fourth district would vote the republican ticket anyway. He didn't care what they liked or disliked he was the big Injun all by himself. The result was that George L. Yapple, democrat, succeeded Mr. Burrows in congress. This historical fact should be remembered by the Hon. E. L. Hamilton as he snaps defiant fingers at the people of Benton Harbor.

Is the treasury department keeping faith with the small bidders for war bonds? It was announced when the bonds were put on sale that the small bidders, those who applied for \$20 and \$100 bonds would, be first supplied. Several \$500 bonds have been received in this city and St. Joseph but none of the small bidders have been supplied. Some of them are even looking for the return of their money.

If Admiral Cervera goes back to Spain it is not likely that he will have a very good time. According to Spanish ideas, a man who loses a battle has no right to survive it. Cervera is well thought of in this country, on account of his treatment of Hobson and for other reasons. The best thing he can do is to make up his mind to stay here.

WHEN word was sent to Gen. Fitzhugh Lee that the protocol had been signed that gallant officer wired back to Washington: "Thanks. The Seventh corps has ceased firing." When it is remembered that Gen. Lee's army was never called out of camp the significance of the reply is easily understood.

REBELLIOUS CUBANS.

They Do Not Like Your Uncle Sam's Way of Managing Things.

LAWTON ASKS FOR INSTRUCTIONS,

And Is Told That the United States Is the Whole Thing at Santiago Just Now—Cubans Must Be Made to Understand This—Those at Santiago Reported To Be Sullen—Military Commission for Cuba and Porto Rico Named—Development of Reconstruction Progresses.

Washington, Aug. 17.—Gradually the framework of a government for the civil administration of affairs in Cuba Porto Rico and such portions of the Philippines as this government controls is being formed. The development of this plan of internal administration occupied much of the attention of the cabinet yesterday, and later Secretary Gage, Attorney General Griggs, Postmaster General Smith and Acting Secretary of State Moore held a two hours' conference at the state department, going over the detail of establishing a civil administration. At the outset the military authorities will be in charge of all administrative affairs in Cuba, Porto Rico and other acquired possessions. But the military forces can do little more than direct the orderly execution of affairs. The carrying on of postal communication, the collection of customs, etc., are civil functions.

Lays Down the Law to the Cubans.

An indication of the policy to be pursued in Cuba is the following reply to an inquiry from Major General Lawton, commanding the department of Santiago, for instructions as to the policy to be observed toward the Cubans that are within his military department: "Replying to your message for instructions the president directs that you be informed that the United States is responsible for peace and must maintain order in the territory surrendered and in your department, and must protect all persons and their property within said jurisdiction, interference from any quarter will not be permitted. The Cuban insurgents should be treated justly and liberally, but they with all others must recognize the military occupation and authority of the United States and the cessation of hostilities proclaimed by the government. You should see the insurgent leaders and so advise them."

There Is Trouble at Santiago.

The war department did not make public the dispatch from General Lawton relative to the Cubans in Santiago, but the order sent to General Lawton indicates something of its nature. General Lawton reports that the Cubans are encamped about the city and do not seem disposed to accept the conditions imposed by the armistice, and some troubles have occurred. Secretary Alger, in speaking of the matter yesterday, said that it might as well be fully understood that the United States would control the surrendered territory, and that it would manage the affairs of that territory. Those who remained within the jurisdiction would have to obey the laws and officers of the United States, as General Lawton was informed. The story of a conference between the United States commanders and the Cuban leaders at Santiago, at which Garcia was declared present, is denied at the war office.

Two Military Commissioners Named.

The military commissions for Cuba and Porto Rico were announced yesterday as follows: For Cuba—Major General James F. Wade, Rear Admiral William T. Sampson and Major General Matthew C. Butler. For Porto Rico—Major General John R. Brooke, Rear Admiral Winfield S. Schley and Brigadier General William W. Gordon.

General William W. Gordon is a well-known citizen of Savannah, Ga. He is the senior colonel of the Georgia state militia and served in the ranks of the Confederate army. He is 61 years old.

Allison Declined the Honor.

Washington, Aug. 17.—Senator Allison was tendered an appointment on the peace commission, but declined, preferring to remain in the senate.

SITUATION IS CALM AT HAVANA.

Principal Talk of the Town Is Speculation on the Peace Terms.

Havana, Aug. 17.—The city remains entirely tranquil. Everybody has resumed ordinary duties and all are thinking of only how to recover something of what has been lost. Conservative natives, and particularly Spanish residents, realize not only the expediency but the necessity of such steps as will save the social interests of the island, avoid future insurrections and prevent a complete annihilation of the wealth partially saved in revolution and war. Sunday and Monday were holidays of the Blessed Virgin, and the churches, theaters and parks were crowded with people, the city having its old-time normal aspect.

Everywhere, in the cafes and on the streets, the conditions of peace are still the subject of anxious inquiry, as thus far nothing definite is known. The various reports received are made the subject of a thousand comments, each man suiting his own desire or whim. It is noticeable, however, that the former roughness of tone that characterized the Havana press in all allusions to America and Americans has disappeared, although these journals still reassert their love toward the mother country. The Spanish residents in Cuba have conducted themselves with exemplary discretion since the report was received of the signing of the protocol.

It is safe to say that wherever the conditions of peace are discussed the opinion is freely expressed—at least by those who realize the importance of maintaining order—that under existing conditions annexation to any other government would be the best solution of the problem. General Blanco declines to grant interviews to newspaper correspondents on the situation, considering that to do so would be untimely and improper. The latest official reports of important engagements with the insurgents bear date prior to the signature of the protocol. An American ship was

seen Saturday morning at the entrance to Cardenas harbor; but the American blockading vessels that were stationed there have withdrawn.

WISCONSIN REPUBLICANS.

On Hand at Milwaukee with a Lively Fight for Head of the Ticket.

Milwaukee, Aug. 17.—The Republican state convention to nominate a state ticket met at the exposition building in this city today at noon. It is the biggest state political gathering that ever assembled in Wisconsin, 1067 delegates having been chosen to select the nominees. Representative M. J. Griffin, of Eau Claire, has been selected as temporary chairman. The main fight in the convention will be for the gubernatorial nomination between Governor Scofield and ex-Representative LaFollette, of Madison. The campaign for the election of delegates has been a hot one between the friends of the two aspirants for the head of the ticket. So warm has it been that many of the shrewd politicians have been advocating the taking on of a third candidate suitable to both factions in order to restore harmony all around.

The outlook, however, is that the factions will fight the battle out between themselves, and either Scofield or LaFollette will receive the nomination. The table of delegates shows 254 to be instructed for Scofield and 304 for LaFollette. The uninstructed are largely reported to be for Scofield, who claims that he will be nominated on the first formal ballot. The result on the balance of the ticket will depend largely on how the governorship is settled.

TRAGEDY IN CORBETT'S FAMILY.

Great Fighter's Father Kills His Wife and Then Commits Suicide.

San Francisco, Aug. 17.—Patrick J. Corbett, father of James J. Corbett, the pugilist, shot and killed his wife at an early hour yesterday morning. He then turned the revolver upon himself and committed suicide. The hypothesis accepted by the family and by the intimate acquaintances and friends of the household is that Corbett was laboring under the effects of temporary insanity. So far as can be ascertained, there was not the slightest reason why the husband should have sought to wreak such awful vengeance upon his wife, as for nearly half a century the couple have lived happily and in perfect contentment together.

Both the old people were natives of Ireland, Corbett being 66 years of age and his wife four years younger. The funeral ceremonies will not be delayed until Jim arrives from the east, but the bodies will be placed in vaults.

New York, Aug. 17.—Pugilist Corbett broke down and cried like a child when he heard of the awful tragedy in his home at San Francisco. He could not say what will be done about his fight with McCoy. He declared that if it was necessary he would forfeit the \$25,000 he had up.

Killed His Sister and Suicided.

Rockford, Ills., Aug. 17.—George Ennett, while in a temporary fit of insanity yesterday, shot and instantly killed his sister Anna, aged 35, and then shot himself, blowing his own head off. His sister was washing at the time her life was taken. Another sister and a washerwoman in the room with her escaped. Ennett, after shooting her, went to an adjoining room, took off one shoe and stocking, put the gun at his right foot, and pulled the trigger with his big toe.

Big Extra Dividend on Pullman.

Chicago, Aug. 17.—The sum of \$7,920,000 are distributed. Monday to the stockholders of the Pullman company, being a special dividend of \$20 per share, and with the regular quarterly dividend of \$2 per share, was declared payable on and after Aug. 15 to stockholders of record at the close of business Aug. 1. This is probably the largest sum ever distributed by an American corporation at one time.

Blew His Playmate's Head Off.

Richland, Wis., Aug. 17.—While little Johnnie Brooks, aged 11, and Philip Illian were playing together in the best of good nature, Illian picked up a rifle and pointed it at his playmate, declaring playfully that he was going to shoot. The weapon was loaded and so close was the muzzle of the gun to the face of the victim that a large part of the boy's head was blown away.

They Made a Bad Bargain.

Platteville, Wis., Aug. 17.—The city council employed twenty or more to work on water mains at 6 cents per foot. Yesterday morning all struck for more pay, claiming that they could not make 50 cents a day. The work is suspended.

Old Man Found in the Woods.

How she Won Over the Judge.

A woman resident of Detroit relates an interesting tale of Kansas justice years ago. It was after her wedding trip that her husband was called to Kansas on business and a real estate dealer, out of spite, had him arrested. The prisoner was taken before a local justice of the peace. The incensed bride insisted upon attending the trial, and while it was in progress she so far forgot herself as to deliberately level her opera glasses upon the justice, who dashed under the table and shouted:

"Deperty, disarm that woman!"

The officer secured the glasses and cautiously laid them before the magistrate, who promptly fined the woman \$1,000 for contempt of court. With gracious dignity she asked the right to defend herself, and, going up to the bench, she explained that the glasses were not harmful, and had the justice look through them, and after a few pretty words of apology she presented them to him. He hit the table a mighty blow to reconvene court, and fined the prosecuting witness \$25 "for insultin a visitin lady and gent in contrariety ter law and eterket."—New York Tribune.

Blunders In Songs and Programmes.

I suppose all composers have had a laugh over the extraordinary mistakes which sometimes occur in the first proofs of their songs. I remember, years ago, writing a very sentimental love song in which the line occurred:

I've never once regretted the vow I made that day.

My feelings may be imagined when I found they had printed

I've never once regretted the row I made that day.

And once the following amusing mistake occurred in the programme of one of my own concerts. A well known singer and very good friend of mine was down to sing my two songs, "To Mary" and "Crabbed Age and Youth." But the newspaper announced something very different. Not content with drawing up a programme of my concert, it drew up a programme of my future, for I read as follows:

Water at Last.

In McClure's Magazine there is an interesting account of Dr. Sven Hedlin, a young Swedish traveler, who has been doing some remarkable work in Asia, in an attempt to cross the hitherto unexplored Takla-Makan desert. His party entered the desert April 10, 1895. The water gave out, the camels died, and one by one all the servants succumbed.

"I went on alone," says Dr. Hedlin. "The forest was very dense and the night black. I had eaten almost nothing for ten days; I had drunk nothing for five. I crossed the forest crawling on all fours, tottering from tree to tree. I carried the haft of the spade as a crutch. At last I came to an open space. The forest ended like a devastated plain. This was a river bed. It was quite dry. There was not a drop of water."

"I went on. I meant to live. I would find water. I was very weak, but I crawled on all fours and at last I crossed the river bed. It was three kilometers wide. Then, as I reached the right bank of the river, I heard the sound of a duck lifting and the noise of splashing water. I crawled in that direction and found a large pool of clear, fresh water."

"I thanked God first, and then I felt my pulse. I wanted to see the effect that drinking would have on it. It was at 48."

"Then I drank. I drank fearfully. I drank and drank and drank. It was a lovely feeling. I felt my blood liquefying. It began to run in my veins; my pores opened. My pulse went up at once to 53. I felt quite fresh and living."

Undaunted by his first terrible experience, Dr. Hedlin crossed the desert again from south to north, and was rewarded by the discovery of a "very old town."

The Wrong Leg.

There is an enterprising Liverpool tailor who has never been known to acknowledge that he didn't have anything a possible customer might ask for.

One day a customer entered the shop and asked if he had any trousers made especially for one legged men.

"Certainly," replied the merchant.

"What kind do you want?"

"Dress trousers," said the man. "The best you've got."

Hurrying into the rear of the store, the enterprising merchant snatched up a pair of trousers and snipped off the right leg with a pair of scissors. Hastily turning under the edges, he presented them to the customer.

"That's the kind I want. What's the price?"

"One guinea."

"Well, give me a pair with the left leg off."

A month later the merchant was pronounced convalescent and on the high road to recovery.—Pearson's Weekly.

Lucky Mr. Walter!

David Walter, a farmer living near Litz, was the victim of a unique surprise the other day. It was the thirty-eighth anniversary of his birth, and Mrs. Walter invited about 50 friends and relatives to participate in a celebration of the event. Shortly before dinner a handsome carriage was presented to Mr. Walter. Under his plate at the table was a fine gold watch. Leaving the table, Mr. Walter was invited to the yard and a herd of ten Holstein cows was driven up and presented to him. This was followed by the appearance of two young ladies dressed in pink, who carried a tray on which were piled gold and silver to the amount of \$3,000. This, too, was presented to the happy man.

Everything was the gift of Mr. Walter's wife, who by industry and frugality in their 15 years of married life had saved the money without the knowledge of her husband.—Philadelphia Times.

Spain's Popular Beverage.

"Horchata de chufa," is the singular name of the most popular drink in Madrid. This is made from a nut called "chufa," yielding a milky liquid when reduced to a pulp. This is diluted with water, and forms a most cooling and refreshing drink. However, it is an acquired taste. Very few like it at the first trial. The horchata may be made from different kinds of nuts. The almond is used also.

Strange to relate, the horchata de chufa is always sold where matting is kept for sale, so that when you spy a roll of the latter outside the store door, it is a sufficient indication that in that particular place you may procure a glass of the horchata. In spite of inquiries, I was unable to discover the origin of the singular combination of articles on sale.—Truth.

Why Sigbee Turned Scuttler.

On another occasion Captain Sigbee deliberately sank his ship to save her from a still worse fate. He was in command of the coast survey steamer Blake and was anchored in a West Indian port when a hurricane came up, and in the heavy sea the ship's anchors began to drag. She was drifting to utter and inevitable destruction on a reef. Where she lay there was a soft, sandy bottom. The captain ordered her scuttled, and down she went. Later she was pumped out and raised—an expensive operation, but far less costly than building a new ship.—Munsey's Magazine.

Papa's First.

"Talk about bright babies!" exclaimed the proud father. "Talk about children who are going to be big men some day!"

"But isn't it rather early to prophesy? He can't talk yet."

"Can't talk! Just listen to him! Of course he doesn't say anything, but that's the beauty of it. He's a natural born filibuster!"—Washington Star.

Odd Name For a Mile.

A Burman mile is about equal in length to two English miles. The word for "mile" in Burmese means "to sit" and a mile is the distance that a man goes before he considers it necessary to sit down.

Bear "Underwear."

A young German engineer whose name is Herr "X." von der Werra had an amusing incident happen to him on a recent ocean voyage which will bear repeating and which he narrates himself with relish. On the steamer were several English ladies who were devoted to whist and who frequently called upon Herr X. to join them in a friendly rubber. The young man does not care particularly for the game; but, as the ladies in question had several charming girls under their wings, policy as well as politeness bade him join in the daily games. The young man suffered from a severe cold, and, in order to protect himself from the drafts, took occasion to wear a couple of heavy bicycle sweaters in addition to his ordinary clothing.

The ladies sympathized and frequently spoke to Herr X. "fundervear," as they pronounced it, about his precautions against additional cold. He was not particularly well versed in English, and the pronunciation of his name puzzled him very much—in fact, he thought they were referring to his sweaters, so finally he blurted out: "Ladies, why do you call me Mr. Underwear? Is it because of these sweaters?" The reply was lost to posterity in the roar of laughter which caused the windows of the saloon to rattle.—Philadelphia Record.

Metallizing Wood.

A method of metallizing wood, one by which it becomes very solid and resistant and assumes the appearance of a true metallic mirror, is described in the Paris Monde with much detail. Briefly, the wood is first immersed for three or four days, as may be its degree of permeability, in a caustic alkaline lye, and thence passed immediately into a bath of hydrosulphite of calcium, to which is added, after 24 or 36 hours, concentrated solution of sulphur in caustic potash. The duration of this bath is about 48 hours, and its temperature is from 55 to 60 degrees. Finally the wood is immersed for 30 or 40 hours in a hot solution of acetate of lead. The wood prepared in this manner and after having undergone a proper drying at a moderate temperature acquires under a burnisher of hard wood a polished surface and exhibits a very brilliant metallic luster—a luster still further increased in its attractiveness if the surface of the wood be rubbed thoroughly, in the first place, with a piece of lead, tin or zinc and afterward be polished with a glass or porcelain burnisher.

A Misunderstood Jest.

Lord Lytton when viceroy of India was seated one day at dinner next to a lady whose name was Birch, and who, though very good looking, was not over-intelligent. Said she to his excellency: "Are you acquainted with any of the Birches?"

"Oh, yes," replied Lord Lytton, "I knew several of them most intimately while at Eton—indeed more intimately than I cared to."

"My lord," replied the lady, "you forget the Birches are relatives of mine."

"And they eat me," said the viceroy, "but," and he smiled his wonted smile, "I have never felt more inclined to kiss the rod than I do now."

Sad to say, Mrs. Birch did not see the point and told her husband his excellency had insulted her.—Exchange.

Opals.

An exquisite gem is the opal, its beautiful creamy surface lit with red, blue and yellow rays scintillating in the light and giving it a place in the front rank of precious stones. Unfortunately the opal has a bad name, and we know the proverb about the dog with the unlucky cognomen. Superstition credits this beautiful stone with bringing misfortune to its owner, and superstition will win its way so long as the world lasts. The opal is peculiarly brittle and sometimes crumbles away without any apparent cause, therefore it has been branded "unlucky." But let those laugh who win, there are still some who value opals for their worth and beauty and who can afford to make merry at the superstitions. The opal is the type of hope.—Chicago News.

Gladstone and Moses.

A correspondent of The British Weekly tells the following story relative to Mr. Gladstone: "I was driving one autumn evening in a conveyance which in those days used to run from Lamlash to King's Cross (Island of Arran) when for any reason the late boat did not go round to Whiting bay. Sitting opposite me were two men who appeared to belong to the Paisley weaver class, and true to the traditions of that class they were busily discussing politics. Presently one of them said, with much emphasis, 'There hasna been a lawgiver equal to Mr. Gladstone since the days o' Moses.' 'Moses!' retorted the other. 'Moses got the law gien tae him frae the Lord, but Mr. Gladstone maks laws oot o' his ain head!'"

Russian Liars.

Russian diplomats hold that it is no disgrace or dishonor to lie in the most unblushing manner in order to promote the interests of their country and of their sovereign. When the late czar asked once of Count Ignatieff how he came to be nicknamed "The Father of Lies" while ambassador at Constantinople, he with a low bow responded, "In the service of your majesty."

SOLDIERS COMING

TWELFTH ANNUAL ENCAMPMENT OF COUNTY BATTALION.

The Reunion Opened Today and Will Continue for Three Days—Tomorrow the Big Day.

St. Joseph put on her holiday attire this morning and will entertain old soldiers for the next three days in a royal manner. The event is the twelfth annual encampment of the Berrien county battalion which will continue Thursday and Friday.

The town is decorated with flags and bunting and at the corner of Ship and State streets a huge red, white and blue arch with the word "Welcome" has been erected.

Today, the first day of the reunion, has been devoted to getting things in camp in shape. The tents are being pitched on the bluff near the stand pipe and this evening a camp fire will be held.

Tomorrow, the main day of the celebration, it is expected that many thousands of people will be in attendance. At 10:30 o'clock tomorrow there will be a grand parade headed by the Evening News Newsboys' band and followed by soldiers, Sons of Veterans and kindred organizations after which dinner will be served and exercises including speeches by Capt. Alex L. Patrick, department commander of the G. A. R. and Col. C. V. R. Pond, assistant adjutant general of this state will be made.

Everyone is cordially invited to attend the camp fire this evening.

\$1 AND COSTS.

Will Moulton Paid This for Talking Through a Megaphone.

The ordinances of this city will not allow a man to yell through a megaphone on the streets and go unpunished. Yesterday afternoon Will Moulton, the solicitor for the steamer Tourist, caught all the excursion trade for the boat to the detriment of the street car line and he was arrested for yelling through a megaphone on the streets. This morning he paid \$1 fine and the cost of prosecution.

It is likely that when the next excursion comes in that the Tourist people will take out a license that will permit Moulton to talk through the megaphone, at which he is an expert. In that case the street railroad people threaten to take out a yelling license too. The cost of these licenses is \$3 per day.

BIG SUGAR MEETINGS.

One at Sodus Friday, One Here on Saturday.

The gentlemen in charge of the sugar beet factory are now pushing the matter with a vim and there will be no cessation of hostilities until all the needed beet contracts are signed and the money raised to build the factory.

A meeting will be held at Sodus Friday evening of this week and at that time the farmers of that vicinity will be afforded an opportunity to sign beet contracts. The farmers are posting themselves on the matter and are alive to the profits of the crop.

The meeting to be held at Conkey's hall in this city next Saturday afternoon at 2 o'clock will be addressed by experts who will throw new light on the coming industry.

To Examine the Eye.

If anything gets into your eye, don't rub it. Good advice, but a little difficult to follow, for one instinctively rubs the eye under these circumstances. Nevertheless, don't do so. Get some one to turn the upper eyelid gently over a thin penholder, so that he may see the ball of the eye thoroughly. If lime gets into the eye and if you see the substance at once, wash out the eye with vinegar to two parts of water. If, however, you don't see the particle immediately, simply put sweet oil or olive oil into the eye and send for the doctor.—New York Ledger.

The statement is made that during the 97 years since the establishment of the state university of Georgia there have been only five deaths among the students.

Facts About the Suez Canal.

The greatest canal in the world is the Suez, opened on Nov. 16, 1869. Its length is 95 miles, its depth is 26 feet, its annual revenue is \$15,000,000, its cost was \$100,000,000. Its stock is five times its par value, and the average time taken to pass through is 20 hours, less eight minutes. The depth of the canal is being increased, at a cost of \$40,000,000. The world's longest canal is the Imperial canal of China, with a length of 1,000 miles.

The World's Longest Tunnel.

The longest tunnel in the world is that of Saint Gothard, on the line of the railroad between Milan and Lucerne. It is nine and a quarter miles in length and cost over \$45,000,000.

These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartments. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

- American Wild Ducks, English Quail, American Pheasant, English Snipe.
- The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

ELASTIC STARCH

has been the standard for 25 years.

TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is.

ASK YOUR DEALER to show you the plaques and tell you about Elastic Starch. Accept no substitute.

How To Get Them:

All purchasers of three 10 cent or six 5 cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.
